A preliminary view of the pricing structure would appear that Bass Annie may have the low bid. Sample invoicing conducted applying both rates in various scenarios. In viewing this information, there are time when both companies offer better pricing depending on the services required. It then became necessary to review previous changes for SCSO repairs to get a more accurate detail fo boby repair expenditures. Invoices for January through March 2008 for SCSO vehicle repairs were reveiwed. The reviewer was able to determine that a good part of the business is seen in body labor and the body supplies, along with a great deal of funds expended for replacement of parts. For the same period, the current vendor ordered \$18,795 in parts. A 15% discount can be realized for Dick Diggons while a 5% discount is offered by Bass Annie. A majority of the hourly work is spent in body labor and body supplies which the hours run the same for each category generally. Seventy percent (70%) of these two categories. Dick Dickents is \$2 higher per hour in body labor but \$17.25 less per hour in body supplies. The paint labor and paint supplies only made up 30% of the work for the time period sampled. Therefore, the difference in Dick Diggon's bid compared to Bass Annie's is about a 19% savings overall.
